SUBJECTS

Abnormality

Unusual ciliary abnormalities in three 9/11 response workers, 40

Abutment

Fitting of 8.5-millimeter abutment for bone conduction devices: indications and postintervention course, 386

Acid

Response of cricopharyngeus muscle to esophageal stimulation by mechanical distension and acid and bile perfusion, 137

Acoustic analysis

Objective methods of sample selection in acoustic analysis of voice, 155

Acute supraglottitis

Acute supraglottitis in adults, 296

Adaptation

Adaptation to steady-state electrical stimulation of vestibular system in humans, 143

Adductor spasmodic dysphonia

Differential vibratory characteristics of adductor spasmodic dysphonia and muscle tension dysphonia on high-speed digital imaging, 21

Adenoid cystic carcinoma

Orbitocranial approach for treatment of adenoid cystic carcinoma of lacrimal gland, 397

Age

Nasal resonance in middle-aged women: multiparameter approach, 575

Airway

Airway complications of pediatric extracorporeal membrane oxygenation, 353

Campomelic dysplasia: airway management in two patients and update on clinical-molecular correlations in head and neck, 682

Role of rhinitis in laryngitis: another dimension of unified airway, 505

Systematic review of endoscopic airway findings in children with gastroesophageal reflux disease, 116

Validity and efficacy of pediatric airway foreign body training course in resident education, 635

Allograft

Ten-month laryngeal allograft survival with use of pulsed everolimus and anti- $\alpha\beta$ T-cell receptor antibody immunosuppression, 131

Ambulatory surgery

Benchmarks for durations of ambulatory surgical procedures in otolaryngology, 727

Amplification

Outcomes of conventional amplification for pediatric unilateral hearing loss, 448

Amplulatory nerve

Eye movements in response to electrical stimulation of lateral and superior amplulatory nerves, 81

Analgesia

Effects of levobupivacaine versus bupivacaine infiltration on postoperative analgesia in pediatric tonsillectomy patients: randomized, double-blind, placebo-controlled study, 489

Antibody

HSP70 antibodies in 80 patients with "clinically certain" Me-

niere's disease, 651

Apnea

Effect of successful surgical treatment on changes of position during sleep in adults with obstructive sleep apnea syndrome, 104

Approach

Editorial. Reflection on rhinologic surgical tenet: "inferior and medial approach" in ethmoid surgery, 561

Nasal centripetal endoscopic sinus surgery, 581

Arthrogryposis

Use of intraoperative laryngeal electromyography to evaluate stridor in children with arthrogryposis, 150

Aspiration

Effects of liquid type, delivery method, and bolus volume on penetration-aspiration scores in healthy older adults during flexible endoscopic evaluation of swallowing, 288

New surgical procedure for laryngotracheal separation without cannula or postoperative treatment, 519

Removal of tracheobronchial foreign bodies via suspension laryngoscope and Hopkins telescope in infants, 484

Asthma

Management of plastic bronchitis in child with mild intermittent asthma, 697

Asymmetry

Vibratory asymmetry in mobile vocal folds: is it predictive of vocal fold paresis? 239

Atelocollagen

Implantation of atelocollagen sponge with autologous bone marrow-derived mesenchymal stromal cells for treatment of vocal fold scarring in canine model, 401

Audiology

Audiology telepractice in clinical environment: communication perspective, 441

Audioprofile

Audioprofile-directed successful mutation analysis in DFNA2/*KCNQ4* (p.Leu274His) family, 243

Auditory threshold

Several mechanical manipulations of wall of inner ear do not affect air and bone conduction auditory thresholds, 66

Bacteria

Activation of transforming growth factor beta pathway in bacterial otitis media, 204

Balloon

Balloon dilation of frontal recess: randomized clinical trial, 511

Computed tomography-based exploration of infundibular anatomy for maxillary sinus balloon dilation, 656

Behavior

School performance and behavior of Korean elementary school students with sleep-disordered breathing, 268 (correction on p 768)

Benign paroxysmal positional vertigo

Are postural restrictions necessary for management of posterior canal benign paroxysmal positional vertigo? 460

Bevacizumab

Local injection of bevacizumab (Avastin) and angiolytic KTP laser treatment of recurrent respiratory papillomatosis of vocal folds: prospective study, 627

Bile

- Response of cricopharyngeus muscle to esophageal stimulation by mechanical distension and acid and bile perfusion, 137

Biomaterial

- Assessment of canine vocal fold function after injection of new biomaterial designed to treat phonatory mucosal scarring, 175

Bleeding

- Comparison of purified plant polysaccharide (HemoStase) versus gelatin-thrombin matrix (FloSeal) in controlling bleeding during sinus surgery: randomized controlled trial, 495
- Nasal packing with strips of cured pork as treatment for uncontrollable epistaxis in patient with Glanzmann thrombasthenia, 732

Body temperature

- Effect of altered core body temperature on glottal closing force, 669

Bone conduction

- Fitting of 8.5-millimeter abutment for bone conduction devices: indications and postintervention course, 386
- Several mechanical manipulations of wall of inner ear do not affect air and bone conduction auditory thresholds, 66

Branchial cyst

- Differential diagnosis of cystic neck lesions, 409

Breathing

- Lung volumes used during speech breathing in tracheoesophageal speakers, 550

Bronchitis

- Management of plastic bronchitis in child with mild intermittent asthma, 697

Bupivacaine

- Effects of levobupivacaine versus bupivacaine infiltration on postoperative analgesia in pediatric tonsillectomy patients: randomized, double-blind, placebo-controlled study, 489

Campomelic dysplasia

- Campomelic dysplasia: airway management in two patients and update on clinical-molecular correlations in head and neck, 682

Carcinoma

- Expression of ABC transporters is unfavorable prognostic factor in laryngeal squamous cell carcinoma, 820
- NUT midline carcinoma mimicking tonsillitis in eight-year-old girl, 546

Carotid body

- Malignant carotid body tumor with systemic metastases, 381

Cartilage

- Function preservation surgery in patients with chondrosarcoma of cricoid cartilage, 603
- Randomized study comparing fascia and cartilage grafts in myringoplasty, 535

Cell proliferation

- Expression of ABC transporters is unfavorable prognostic factor in laryngeal squamous cell carcinoma, 820

Central giant cell granuloma

- Central giant cell granuloma of jaws: clinical study of 17 cases and review of literature, 167

Centripetal technique

- Nasal centripetal endoscopic sinus surgery, 581

Cervicomedullary compression

- Neurologic variant laryngomalacia associated with Chiari malformation and cervicomedullary compression: case reports, 99

Chemotherapy

- Concurrent superselective intra-arterial chemotherapy and radiotherapy for late-stage squamous cell carcinoma of temporal bone, 372

Chiari malformation

- Neurologic variant laryngomalacia associated with Chiari malformation and cervicomedullary compression: case reports, 99

Cholesteatoma

- Congenital mastoid cholesteatoma: case series, definition, surgical key points, and literature review, 700
- Facial nerve dehiscence and cholesteatoma, 261

Chondrosarcoma

- Function preservation surgery in patients with chondrosarcoma of cricoid cartilage, 603

Chorda tympani nerve

- Light and electron microscopic observation of regenerated fungiform taste buds in patients with recovered taste function after severing chorda tympani nerve, 713
- Morphology of human fungiform papillae after severing chorda tympani nerve, 300

Chronic tinnitus

- Melatonin: can it stop ringing? 433

Cilia

- Unusual ciliary abnormalities in three 9/11 response workers, 40

Closing force

- Effect of altered core body temperature on glottal closing

- force, 669
- Cochlear implant
 - Complications of cochlear implantation in adults, 428
 - Effect of surgical technique on electrode impedance after cochlear implantation, 529
 - Observation of cortical activity during speech stimulation in prelingually deafened adults with cochlear implantation by positron emission tomography-computed tomography, 499
 - Protective effect of systemic administration of erythropoietin on auditory brain stem response and compound action potential thresholds in animal model of cochlear implantation, 737
- Collagen

Microbiology of acute and chronic maxillary sinusitis in smokers and nonsmokers, 707
- Minimally invasive surgery**
Minimally invasive thyroid surgery in children, 215
- Model**
Novel model to assess laryngeal function, innervation, and reinnervation, 331
Quantity and three-dimensional position of recurrent and superior laryngeal nerve lower motor neurons in rat model, 761
- Mutation**
Audioprofile-directed successful mutation analysis in DFNA2/*KCNQ4* (p.Leu274His) family, 243
- Phenotype analysis of Australian DFNA9 family with I109N *COCH* mutation, 414
Phenotypes of two Dutch DFNA3 families with mutations in *GJB2*, 191
- Myotomy**
Carbon dioxide laser-assisted endoscopic cricopharyngeal myotomy with primary mucosal closure, 33
- Myringoplasty**
Randomized study comparing fascia and cartilage grafts in myringoplasty, 535
- Nasal obstruction**
Comparison of nasal sound spectral analysis and peak nasal inspiratory flow before and after decongestion in patients with nasal obstruction, 391
- Nasal resonance**
Nasal resonance in middle-aged women: multiparameter approach, 575
- Nasal valve**
Endonasal repositioning of upper lateral cartilage and internal nasal valve, 88
- Nasolacrimal duct**
Analysis of functional and anatomic success following endonasal dacryocystorhinostomy, 231
- Neck**
Differential diagnosis of cystic neck lesions, 409
- Nerve**
Eye movements in response to electrical stimulation of lateral and superior ampullary nerves, 81
Fallopian canal stapedotomy in congenital stapes fixation with aberrant facial nerve, 377
Investigation of fatigue, delayed-onset muscle soreness, and spectral-based cepstral measurements in healthy speakers after neuromuscular electrical stimulation, 641
Laryngeal features of external superior laryngeal nerve denervation: revisiting century-old controversy, 1
Neuronal mechanisms underlying laryngeal adductor reflex, 755
Novel model to assess laryngeal function, innervation, and reinnervation, 331
Olfactory ensheathing cells in rat model of laryngeal reinnervation, 273
Potential nerve damage following contact with piezoelectric device, 249
Quantity and three-dimensional position of recurrent and superior laryngeal nerve lower motor neurons in rat model, 761
- Neurofibromatosis**
Parapharyngeal ganglioneuroma with neurofibromatosis: unusual presentation, 769
- Nitric oxide**
Nasal nitric oxide and lifestyle exposure to tobacco smoke, 455
- Normative values**
Eustachian tube function in adults without middle ear disease, 220
- Nose**
Comparison of nasal sound spectral analysis and peak nasal inspiratory flow before and after decongestion in patients with nasal obstruction, 391
- NUT midline carcinoma**
NUT midline carcinoma mimicking tonsillitis in eight-year-old girl, 546

Obstructing encephalocele

Obstructing encephaloceles presenting as chronic rhinosinusitis: lessons learned from case series, 474

Obstructive sleep apnea

Effect of successful surgical treatment on changes of position during sleep in adults with obstructive sleep apnea syndrome, 104

Olfactory ensheathing cell

Olfactory ensheathing cells in rat model of laryngeal reinnervation, 273

Orbit

Acute rhinosinusitis-related orbital infection in pediatric patients: retrospective analysis, 185

Orbitocranial approach

Orbitocranial approach for treatment of adenoid cystic carcinoma of lacrimal gland, 397

Ossicular prosthesis

Good Manufacturing Practices-grade preformed ossicular prostheses from banked bone via computer numerically controlled micromilling, 9

Osteochondromatosis

Temporomandibular joint osteochondromatosis: unusual cause of preauricular swelling, 63

Osteoma

Comparative case series of exostoses and osteomas of internal auditory canal, 255

Otitis media

Activation of transforming growth factor beta pathway in bacterial otitis media, 204

Effect of type I tympanoplasty on quality of life of children, 326

Eustachian tube function in adults without middle ear disease, 220

Prevalence of otitis media with effusion among children in Xi'an, China: randomized survey in China's mainland, 617

Otosclerosis

Commentary on "Otosclerosis: thirty-year follow-up after surgery," 615

Effects of fenestra size and piston diameter on outcome of stapes surgery for clinical otosclerosis, 363

Otosclerosis: thirty-year follow-up after surgery, 608

Papilloma

Initial experience using propranolol as adjunctive treatment in children with aggressive recurrent respiratory papillomatosis, 17

Local injection of bevacizumab (Avastin) and angiolytic KTP laser treatment of recurrent respiratory papillomatosis of vocal folds: prospective study, 627

Paraganglioma

Malignant carotid body tumor with systemic metastases, 381

Parapharyngeal ganglioneuroma

Parapharyngeal ganglioneuroma with neurofibromatosis: unusual presentation, 769

Paresis

Vibratory asymmetry in mobile vocal folds: is it predictive of vocal fold paresis? 239

Pharyngitis

Chronic pharyngitis is associated with severe acidic laryngopharyngeal reflux in patients with Reinke's edema, 722

Phenotype

Phenotype analysis of Australian DFNA9 family with 1109N *COCH* mutation, 414

Phenotypes of two Dutch DFNA3 families with mutations in *GJB2*, 191

Phonatory mucosa

Assessment of canine vocal fold function after injection of new biomaterial designed to treat phonatory mucosal scarring, 175

Piezoelectric device

Potential nerve damage following contact with piezoelectric device, 249

Plastic bronchitis

Management of plastic bronchitis in child with mild intermittent asthma, 697

Polyp

Chronic rhinosinusitis with nasal polyps: proteomic analysis, 780

Positron emission tomography

Role of positron emission tomography-computed tomography in head and neck cancer, 593

Posterior glottic diastasis

Posterior glottic diastasis: mechanically deceptive and often overlooked, 71

Postural restriction

Are postural restrictions necessary for management of posterior canal benign paroxysmal positional vertigo? 460

Practice

Benchmarks for durations of ambulatory surgical procedures in otolaryngology, 727

Preauricular swelling

Temporomandibular joint osteochondromatosis: unusual cause of preauricular swelling, 63

Preformed ossicular prosthesis

Good Manufacturing Practices-grade preformed ossicular prostheses from banked bone via computer numerically controlled micromilling, 9

Prevalence

Prevalence of otitis media with effusion among children in Xi'an, China: randomized survey in China's mainland, 617

Propranolol

Initial experience using propranolol as adjunctive treatment in children with aggressive recurrent respiratory papillomatosis, 17

Status of propranolol for treatment of infantile hemangioma and description of randomized clinical trial, 686

Prosthesis

Determination of predictive factors of tracheobronchial prosthesis removal: stent brands are crucial, 307

Good Manufacturing Practices-grade preformed ossicular prostheses from banked bone via computer numerically controlled micromilling, 9

Proteomics

Chronic rhinosinusitis with nasal polyps: proteomic analysis, 780

Quality of life

Effect of type I tympanoplasty on quality of life of children, 326

Prevalence of insomnia and impact on quality of life among community elderly subjects with tinnitus, 226

- Spasmodic dysphonia: onset, course, socioemotional effects, and treatment response, 465
- Radiolocalization**
Radiolocalization of sentinel lymph nodes in clinically N0 laryngeal and hypopharyngeal cancers, 345
- Radiotherapy**
Concurrent superselective intra-arterial chemotherapy and radiotherapy for late-stage squamous cell carcinoma of temporal bone, 372
Pathologic effects of external-beam irradiation on human vocal folds, 748

Objective methods of sample selection in acoustic analysis of voice, 155
- Scaffold**
Adipose-derived mesenchymal stem cells in collagen-hyaluronic acid gel composite scaffolds for vocal fold regeneration, 123
Laryngeal regeneration using tissue engineering techniques in canine model, 49
- Scar**
Assessment of canine vocal fold function after injection of new biomaterial designed to treat phonatory mucosal scarring, 175
Implantation of atelocollagen sponge with autologous bone marrow-derived mesenchymal stromal cells for treatment of vocal fold scarring in canine model, 401
- School performance**
School performance and behavior of Korean elementary school students with sleep-disordered breathing, 268 (correction on p 768)
- Schwannoma**
Prediction of vestibular schwannoma growth: novel rule based on clinical symptomatology, 807
- Sensorineural hearing loss**
Evaluation of pediatric sensorineural hearing loss: survey of pediatric otolaryngologists, 674
Long-term effects of hearing aids on word recognition scores, 314
- Sentinel lymph node**
Radiolocalization of sentinel lymph nodes in clinically N0 laryngeal and hypopharyngeal cancers, 345
- Septal deviation**
Do anatomic variations of middle turbinate have effect on nasal septal deviation or paranasal sinusitis? 569
- Sinus**
Acute rhinosinusitis-related orbital infection in pediatric patients: retrospective analysis, 185
Clinical outcomes of sinogenic intracranial suppuration: the Alder Hey experience, 320
Computed tomography-based exploration of infundibular anatomy for maxillary sinus balloon dilation, 656
Do anatomic variations of middle turbinate have effect on nasal septal deviation or paranasal sinusitis? 569
Editorial. Reflection on rhinologic surgical tenet: "inferior and medial approach" in ethmoid surgery, 561
Evaluation of outcomes in patients given dexmedetomidine in functional endoscopic sinus surgery, 586
Microbiology of acute and chronic maxillary sinusitis in smokers and nonsmokers, 707
Nasal centripetal endoscopic sinus surgery, 581
Revision rates after endoscopic sinus surgery: recurrence analysis, 162
Superior mesotympanic sinus, 95
- Sleep**
Effect of successful surgical treatment on changes of position during sleep in adults with obstructive sleep apnea syndrome, 104
School performance and behavior of Korean elementary school students with sleep-disordered breathing, 268 (correction on p 768)
- Smoking**
Microbiology of acute and chronic maxillary sinusitis in smokers and nonsmokers, 707

- Nasal nitric oxide and lifestyle exposure to tobacco smoke, 455
- Software Review
- Visual examination of voice disorders, 214
- Spasmodic dysphonia
- Differential vibratory characteristics of adductor spasmodic dysphonia and muscle tension dysphonia on high-speed digital imaging, 21
 - Spasmodic dysphonia: onset, course, socioemotional effects, and treatment response, 465
- Speech
- In vitro evaluation of iValve: novel hands-free speech valve, 814
 - Lung volumes used during speech breathing in tracheoesophageal speakers, 550
 - Observation of cortical activity during speech stimulation in prelingually deafened adults with cochlear implantation by positron emission tomography-computed tomography, 499
- Stapes
- Effects of fenestra size and piston diameter on outcome of stapes surgery for clinical otosclerosis, 363
 - Fallopian canal stapedotomy in congenital stapes fixation with aberrant facial nerve, 377
 - Otosclerosis: thirty-year follow-up after surgery, 608
- Stapler
- Pharyngocutaneous fistula after total laryngectomy: less common with mechanical stapler closure, 339
- Stem cell
- Adipose-derived mesenchymal stem cells in collagen-hyaluronic acid gel composite scaffolds for vocal fold regeneration, 123
 - Implantation of atelocollagen sponge with autologous bone marrow-derived mesenchymal stromal cells for treatment of vocal fold scarring in canine model, 401
- Stenosis
- Epiglottic repositioning procedure for supraglottic stenosis/collapse, 478
- Stent
- Determination of predictive factors of tracheobronchial prosthesis removal: stent brands are crucial, 307
- Stimulation
- Investigation of fatigue, delayed-onset muscle soreness, and spectral-based cepstral measurements in healthy speakers after neuromuscular electrical stimulation, 641
- Stridor
- Use of intraoperative laryngeal electromyography to evaluate stridor in children with arthrogryposis, 150
- Superior laryngeal nerve
- Laryngeal features of external superior laryngeal nerve denervation: revisiting century-old controversy, 1
- Superior mesotympanic sinus, 95
- Suppuration
- Clinical outcomes of sinogenic intracranial suppuration: the Alder Hey experience, 320
- Supraglottic stenosis
- Epiglottic repositioning procedure for supraglottic stenosis/collapse, 478
- Supraglottitis
- Acute supraglottitis in adults, 296
- Survey
- Evaluation of pediatric sensorineural hearing loss: survey of pediatric otolaryngologists, 674
- Swallowing
- Effects of liquid type, delivery method, and bolus volume on penetration-aspiration scores in healthy older adults during flexible endoscopic evaluation of swallowing, 288
- Taste
- Clinical test of gustatory function including umami taste, 358
- Telepractice
- Audiology telepractice in clinical environment: communication perspective, 441
- Temperature
- Effect of altered core body temperature on glottal closing force, 669
- Temporomandibular joint
- Temporomandibular joint osteochondromatosis: unusual cause of preauricular swelling, 63
- Thyroid gland
- Dysphonia associated with lingual thyroid gland and hypothyroidism: improvement after lingual thyroidectomy, 775
 - Minimally invasive thyroid surgery in children, 215
- Tinnitus
- Melatonin: can it stop ringing? 433
 - Prevalence and significance of high-frequency hearing loss in subjectively normal-hearing patients with tinnitus, 523
 - Prevalence of insomnia and impact on quality of life among community elderly subjects with tinnitus, 226
- Tissue engineering
- Laryngeal regeneration using tissue engineering techniques in canine model, 49
- Tobacco
- Nasal nitric oxide and lifestyle exposure to tobacco smoke, 455
- Tongue
- Light and electron microscopic observation of regenerated fungiform taste buds in patients with recovered taste function after severing chorda tympani nerve, 713
 - Morphology of human fungiform papillae after severing chorda tympani nerve, 300
- Tonsillitis
- NUT midline carcinoma mimicking tonsillitis in eight-year-old girl, 546
- Tracheal closure
- New surgical procedure for laryngotracheal separation without cannula or postoperative treatment, 519
- Tracheal injury
- Management and outcomes of laryngeal injuries in pediatric population, 787
- Tracheal wall defect
- Reconstruction of tracheal wall defect with mesh patch of nickel-titanium shape-memory alloy, 198
- Tracheobronchial foreign body
- Removal of tracheobronchial foreign bodies via suspension laryngoscope and Hopkins telescope in infants, 484
- Tracheobronchial prosthesis
- Determination of predictive factors of tracheobronchial prosthesis removal: stent brands are crucial, 307
- Tracheocutaneous fistula
- Local repair of persistent tracheocutaneous fistulas, 622

- Tracheoesophageal speech
 - Lung volumes used during speech breathing in tracheoesophageal speakers, 550
- Transforming growth factor beta
 - Activation of transforming growth factor beta pathway in bacterial otitis media, 204
- Transporter
 - Expression of ABC transporters is unfavorable prognostic factor in laryngeal squamous cell carcinoma, 820
- Trauma
 - Management and outcomes of laryngeal injuries in pediatric population, 787
- Turbinate
 - Do anatomic variations of middle turbinate have effect on nasal septal deviation or paranasal sinusitis? 569
- Tympanoplasty
 - Effect of type I tympanoplasty on quality of life of children, 326
- Ultrasonic shears**
 - Use of ultrasonic shears in harvest of free osteocutaneous fibula flap, 563
- Umami
 - Clinical test of gustatory function including umami taste, 358
- Unilateral hearing loss
 - Outcomes of conventional amplification for pediatric unilateral hearing loss, 448
- Upper lateral cartilage
 - Endonasal repositioning of upper lateral cartilage and internal nasal valve, 88
- Valve**
 - Endonasal repositioning of upper lateral cartilage and internal nasal valve, 88
 - In vitro evaluation of iValve: novel hands-free speech valve, 814
- Vertigo
 - Are postural restrictions necessary for management of posterior canal benign paroxysmal positional vertigo? 460
- Vestibular implant
 - Adaptation to steady-state electrical stimulation of vestibular system in humans, 143
 - Eye movements in response to electrical stimulation of lateral and superior ampullary nerves, 81
- Vestibular schwannoma
 - Prediction of vestibular schwannoma growth: novel rule based on clinical symptomatology, 807
- Videostroboscopy
 - Vibratory asymmetry in mobile vocal folds: is it predictive of vocal fold paresis? 239
- Visual examination
 - Visual examination of voice disorders, 214
